

Stefania Mignani

Professoressa Ordinaria di Statistica. Alma Mater Studiorum - Università di Bologna.

stefania.mignani@unibo.it

Full Professor of Statistics at the University of Bologna, where she has been a member of the Department of Statistical Sciences since 1990. Her teaching covers key areas such as statistical modelling, multivariate analysis, sampling methods and data literacy.

She has played an important role in promoting innovation in teaching. She serves as the Departmental Delegate for Data Literacy and has also been an active contributor to the national initiative to promote digital literacy through MOOCs, promoting cross-disciplinary statistical education. Her research focuses mainly on multivariate statistical models and statistical methods for assessing student competencies, making her a specialist in educational measurement and learning assessment at different levels of education. Professor Mignani has collaborated extensively with INVALSI, contributing to projects on digital literacy assessment and standardised testing, and is currently a member of its Scientific Council. She is actively involved in several national and international scientific societies
